

CMI Goals

1. Free Children and families from debt slavery
2. Care for orphans and displaced children
3. Provide vaccines and medical treatment
4. Provide clean and safe drinking water
5. Supplement child nutrition as needed
6. Provide better education for all children
7. Assist with safer housing when possible

CMI supports children and their communities with love and dignity for all. While no ministry can solve all problems – love guarantees we will never quit.

Freedom Health Opportunity Dignity

Reaching our goals requires a lot of love, prayer and, naturally, money. To achieve our goals, our program costs about \$35 a month per child. We cannot do it without the help and support of people like you.

Freedom Health Opportunity Dignity

Help CMI serve the world's poorest children. In Pakistan, 100 million people live on less than \$20 a month. Many are caught in debt slavery, including children. The poorest live in severe malnutrition, poor health, elevated child mortality with limited education lacking a way out of this situation. Let's help them!
